

PICK-UP SWEEPER

TRACKLESSVEHICLES.COM

MAKING SIDEWALK CLEAN-UP A BREEZE.

The winter battle can leave a considerable accumulation of sand and other debris on sidewalks. The Trackless Pickup Sweeper is the ideal attachment for your sidewalk spring clean-up.

The Sweeper is driven for one or more blocks, collecting debris in its path and emptied by a hydraulically controlled bottom gate.

Rubber skirting on the sides and front help control dust. Adding the optional Spray Bar Kit and Water Tank attachment provides additional dust suppression.
