

# SNOW LION ICE-BREAKER

[TRACKLESSVEHICLES.COM](http://TRACKLESSVEHICLES.COM)

## BUILT TO TACKLE WINTER'S TOUGHEST CHALLENGES.

The Snow Lion Ice-Breaker is designed to pulverize ice and hard-packed snow that can build up on sidewalks and walkway surfaces over time. The prevention of potential slip and falls is a significant concern for all municipalities, and the Ice-Breaker attachment was explicitly designed for this purpose.

The Ice-Breaker can operate regardless of temperature or climate and can provide effective ice control in temperatures that may render deicing agents ineffective. The Ice-Breaker features a double pulverizing roller system, which provides two passes in one.
